Dear Sarah

Playground Maintenance Estimate for Inspection Remedials – Humphries Way

Thank you for your enquiry regarding our maintenance services, I am pleased to enclose an estimate for the work as requested.

All our maintenance work is carried out to the European Standards of EN1176, EN1177 and EN16630. OLP is accredited to both ISO9001:2015 (Quality Assurance), ISO 45001:2018 (Health and Safety Systems) and all our inspectors and field engineers also hold DBS certificates so you can be assured your repairs will be carried out to the highest possible standards of both quality and safety.

Maintenance Estimate No.: 76296

Maintenance & Repairs

Replacement Timbers

15 Year Guarantee

We use high quality timber from FSC (From forests are managed to strict environmental, social and economic standards) certified slow grown softwood for all our replacement timbers. Whether it is our laminated Safalog products, round log or square sectional replacements it is pressure treated with ACQ after machining to size, providing a long-lasting low maintenance product that complies with BSEN335 Part 1, use class 4 in ground contact timber.

Inspections

RPII Certified

There are 3 types of playground inspection that should be carried out. A Visual Inspection that can be carried out by your own maintenance staff, an Operational Inspection that we offer from our fully qualified team and Annual Inspections to be carried out by an independent specialist.

For more information please visit www.onlineplaygrounds.com/maintenance-services, email maintenance@onlineplaygrounds.co.uk or call 01354 699482 where our dedicated team can assist with your requirements.

Project Assumptions

The following assumptions have been made regarding this quotation:

- Quotation is Valid for **60 days** from date of creation. Please contact your OLP representative, if you would like us to check and update the prices for a further period.
- Good access will be available to the site.
- Estimate or Quotation? Whilst we endeavor to provide fixed prices for all maintenance and repair works sometimes additional issues are discovered during the works. When this occurs, the client will be advised of the discovered problem and the additional cost of the repair before the further work is carried out.

Ordering Is Easy

- Call 01354 699482
- Email: maintenance@onlineplaygrounds.co.uk

Payment and Delivery Terms

If you have a **Trading Account** then the total invoice is payable within 28 days of project completion, otherwise payment in full by **Pro-forma Invoice** is required.

* All delivery times are from receipt of official order subject to seasonal demand. The delivery times of "genuine spares" unless in stock is unfortunately beyond our control and in some cases can be up to 8 weeks.

I trust the above quotation meets with your approval and look forward to receiving your further instructions. If in the meantime you need any more information or changes making to this proposal, please do not hesitate to contact me.

Yours Sincerely

Chloe Kent

Inspections < inspections@wicksteed.co.uk >

Fri, 17 Apr 2026 2:20:56 PM +0100

To "Parish Clerk"<clerk@miltonparishcouncil.gov.uk>

Hi Sarah

Thank you for your enquiry.

I can confirm that all posts/legs would be tested as part of the Resistograph inspection, and the report will clearly highlight whether any defects are present and if any remedial action is required.

In terms of replacement costs, this would depend on the findings of the report, including the condition and specific requirements of the equipment.

Should any replacements be needed, we would need to refer this to our relevant team to provide a quotation. Please also note that we are only able to quote for repairs or replacements where the equipment is of Wicksteed manufacture.

If you would like to proceed with the testing, or if you have any further questions, please do not hesitate to get in touch.

Kind regards,
Hannah

Hello Hannah

Is the testing for all 4 legs?
Would the report then tell us what legs need to be replaced?
How much is it to replace 1 leg?

Kind regards.

Sarah Corder

Subject: HR // Inspection Report and Finding Summary - 1271175-429655

Hello Sarah

The price to provide a Resistograph/Timber Test on your 1 Bay 2 Seat Cradle swing at Froment Way will be £450 +VAT.

Please note that, depending on availability, there may be a longer lead time for this type of test. As a result, we are currently unable to confirm an exact date immediately, but I will keep you updated as soon as we have more information should you proceed with this order.

Kind Regards
Hannah

Dear Kimberly

QUOTATION
QUOTE REF: WLLQ22199
Timbers for Timber Swing

Sarah Corder
Milton Parish Council

Quotation from:
Kimberly Gibbons
01536 425 796 x3147
aftersales3@wicksteed.co.uk

Date: 22/04/2026
Valid to: 23/05/2026

Thank you for your interest in our products and services, we are pleased to present the details of our quote which you can find below.

Please note the following:

Our approximate lead time is 6-8 weeks upon receipt of order.

We have quoted for all parts which you may require. If any are unused, we will arrange for a credit note to be sent and note the labour charge remains as is.

If any parts/surfacing deteriorate between the time the quote is received and the Engineer attends site, there may be additional items/surfacing required at additional costs.

Any Installations work including painting and surfacing, are subject to weather permitting.

This quote is based on the Inspection Report dated ##/##/##. Any further work identified when attending site to complete the order, will need to be quoted, and a further labour charge will be incurred.

If we attend site and for any reason, we're unable to complete the works, the labour charge is still applicable.

As inspections are visual non-dismantling inspections it is not always apparent until work commences on site that other parts may be required; if this is the case an additional quotation will be provided.

Please kindly state your quotation reference number at point of order.

Code	Description	Unit	Qty	Total
Supply the following parts for the existing 6ft Timber Cradle Swing:-				
WLLQ22199	Timber for Fawns 6ft Cradle Swing	£229.59	4.0	£918.36
SubTotal				£918.36
Carriage				£78.06

Should you require additional support please don't hesitate to contact us.

It is important that you fully read through the Inspection Report(s) and address all findings as recommended to request a quotation for any items not listed above.

Upon request, we are happy to provide a labour charge to fit the quoted parts.

Description

- Large aperture allows for easy 'walk by' disposal of waste for passers-by
- Galvanised steel liner ensures the inner will be durable and long-lasting
- Iroko panels are known for being stain resistant, durable and hard-wearing
- Available in natural oak, light oak or dark oak to match to the surroundings of the bin
- Extremely easy to empty as the liner simply lifts out of the bin
- Optional glass fibre lift up lid for added security and flooding prevention
- Optional locking bracket is available to secure the liner to the bin and prevent people removing the liner

The Circular Slatted litter bin features a simple yet attractive design that is ideally suited for use in parks and green spaces.

The unit is constructed using a galvanised steel carcass clad in Iroko hardwood slats. Iroko is used as it is incredibly stain-resistant, durable and hard-wearing - it is available with either a natural oak, light oak or dark oak finish.

A galvanised steel liner collects the litter and lifts out for easy emptying. An optional glass fibre lift up lid is available for added security and to keep the rain out preventing flooding in the bin. An optional locking bracket is also available to secure the liner to the bin and prevent unauthorised personnel from removing the liner.

Set of 4 M10 x 140 Steel RAWL Bolts

£13.14 ex. VAT [More Info](#)

[Overview](#) [Description](#) [Product Questions](#) [Specification](#) [Product Downloads](#)

Description

- Open top square aperture allows passers-by to easily dispose of waste
- Ideal for use in parks and green spaces as the PEFC accredited timber will naturally blend into the surroundings
- Iroko wood material used is stain resistant, durable and long lasting
- Available in natural oak, light oak or dark oak
- Galvanised steel liner adds further durability to the inner of the bin
- Optional locking bracket for keeping the inner safe
- Optional bolts that can be used to secure the bin to the ground for further security

The Square Slatted litter bin features a simple yet attractive design that is ideally suited for use in parks and green spaces.

The unit is constructed using a galvanised steel carcass clad in Iroko hardwood slats. Iroko is used as it is stain resistant, it is durable and hard wearing.

You have the choice of either a natural oak, light oak or dark oak finish.

A galvanised steel liner collects the litter and lifts out for easy emptying. For added security and to keep rain out, an optional steel lid is available.

FW: Amended quotation for Milton BT Kiosk

David Coulson

THU APR 23 2:12 PMINBOX

Parish Clerk

Good Afternoon John

Further to your enquiry below we hereby detail our amended quotation for the works as requested.

- Remove upper glass panes as necessary to enable lifting straps to be fed through and over the roof
- Strap door closed to the frame for protection
- It is understood that the base is separate to the 3 sides and door
- Lift base after releasing the ground bolts and relocate.
- Waste Bin – Take away and break up pad.
- Break up existing small concrete pad
- Lay new pad – 500 x 500 mm - 50mm concrete on 50mm hardcore finished level with grass verge
- Kiosk Slab Base – 2.5 m wide (front dimension facing car park) x 2.8 m long (door entry side)
- Excavate soil to depth min 200mm, cart surplus away to registered waste site
- Fix 12 mm thick Fibreboard expansion slip to kerb face
- Form timber frame for new concrete slab
- Lay and compound type 1 hardcore 100mm deep
- Lay 100mm concrete, finished level with top of existing kerb
- Brush finish concrete
- Set kiosk 900mm into slab from existing kerb (to allow car overhang)
- Make electrical connection from existing street light into kiosk.
- Bolt base to slab
- Fix kiosk to base
- Rake soil, lay turf to level of existing grassed area

All for the sum of £4,565.37 Plus V.A.T.

Our current lead in time from receipt of order is around 4 weeks.

Kind Regards

David
